The City of Port St. Joe

PRECAUTIONARY BOIL WATER NOTICE
PWS # 1230545

DATE: 7-11-25

TO: Customers at: Port City Shopping Center

Beginning 7-14-2025

Due to a need to repair a water line on 7-14-2025 that supplies your drinking water, there is a concern for possible contamination. Therefore, as a precaution, we advise that all water used for *drinking or cooking* be boiled. A rolling boil of one minute is sufficient. As an alternative bottled water may be used for these purposes.

When the main has been repaired and flushed, bacteriological samples of the water will be collected and sent to the laboratory. This *precautionary boil water notice* will remain in effect until the bacteriological samples shows the water is safe to drink.

If you have any questions you may contact Larry McClamma at the Water Department Office at 229-1421, 229-6395 or John Grantland at the City of Port St. Joe Public Works Office at 229-8247.
