Job Description

Electrician

NATURE OF WORK

The primary job duty for this position will be the instrumentation technician for the wastewater plant.

Assists and performs semi-skilled construction and installation of electrical services to City facilities also and other work as directed.

Performs specialized electrical work associated with a variety of electronic and instrumentation equipment.

Work is performed under the general supervision of the Wastewater Plant Manager. Works inside and outside in various weather conditions with slippery surfaces and around dangerous chemicals and heights.

This is a highly technical position that requires troubleshooting of instrumentation in an industrial environment.

EXAMPLES OF WORK

Assists in the construction of electrical/instrumentation services to City facilities.

Assists and troubleshoots electrical/instrumentation problems in various facilities.

Performs routine preventative maintenance of electrical/instrumentation services to insure proper operation.

Performs routine preventative maintenance of mechanical services to insure proper operation.

Performs related work as required.

KNOWLEDGE, SKILLS AND ABILITIES

Knowledge of the Department's rules, regulations, policies and procedures as well as relevant training programs and content.

Knowledge of the electrical trades and operations as they apply to the facilities maintenance. Ability to understand and carry out moderately complex oral or written instructions.

Ability to report to work overtime when necessary, during off time hours.

Ability to do manual and physical labor without difficulty.

Ability to work at heights.

REQUIRED TRAINING, EXPERIENCE, CERTIFICATIONS

Must possess a high school diploma.

Must possess a valid Florida Driver License.
